

## K-Magna-Patch

### Reusable Wear Repair Patches

The K-Magna-Patch is a reusable magnetically fastened polymer patch that provides cost effective instant repair to steel equipment. This highly visible product is a quick and secure means of repairing holes in steel pipes, elbows, silos, chutes, bins, hoppers and other steel equipment subjected to abrasion. K-Magna-Patch products work well for emergency response and spill containment.

Using a rubber pad on the inside against the area to be sealed, K-Magna-Patch provides a quick and efficient solution to leaks, allowing the user to replace as required to keep production going until a scheduled permanent repair date.

Wear pads are available to resist whatever medium is being sealed.

Key benefits:

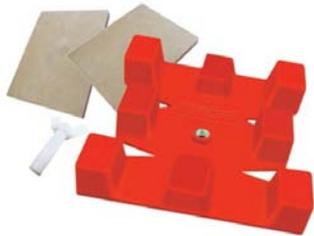

- Easy application and installation
- No tools – “snaps” on and off
- Reduces clean up and down time
- Maintenance-free
- Reusable
- Abrasion resistant
- Industry proven

Part Number	Description
FAW-MAG-MP-611	K-MAGNAPATCH - <b>Mini</b>
FAW-MAG-MP-711	K-MAGNAPATCH - <b>Standard</b>
FAW-MAG-MP-811	K-MAGNAPATCH - <b>Elbow</b>

*Also available in FRAS (Fire Resistant Anti-Static)*

## K-Magna-Patch

Part number	Product name	Dimension Information
FAW-MAG-MP-611	K-Magna-Patch – <b>Mini</b> 	<p><b><u>Consists of 3 components:</u></b></p> <p>Magnetic retainer - a flexible elastomeric material with 6 powerful magnetic elements. L216mm x W165mm x H38mm. Weight 1.2 kg.</p> <p>Comes with two replaceable abrasion resistant pads (pads for other conditions available).</p> <p>Adjustable 1.27cm “Power Screw” (tightens pad against area to be patched).</p> <p><i>*Similar to the MP-811 in that it works on flat and round radius applications, but designed for smaller diameter piping (7.62cm dia and up)</i></p>
FAW-MAG-MP-711	K-Magna-Patch – <b>Standard</b> 	<p><b><u>Consists of 3 components:</u></b></p> <p>Magnetic retainer - a flexible elastomeric material with 2 powerful magnetic elements. L190mm x W280mm x H38mm. Weight 3 kg.</p> <p>Comes with two replaceable abrasion resistant pads (pads for other conditions available).</p> <p>Adjustable 1.27cm “Power Screw” (tightens pad against area to be patched).</p>
FAW-MAG-MP-811	K-Magna-Patch - <b>Elbow</b> 	<p><b><u>Consists of 3 components:</u></b></p> <p>Magnetic retainer - flexible elastomeric material with 8 powerful magnetic elements. L254mm x W273mm x H38mm. Weight 2 kg.</p> <p>Comes with two replaceable abrasion resistant pads (pads for other conditions available).</p> <p>Adjustable 1.27cm “Power Screw” (tightens pad against area to be patched).</p>
