**BULK MATERIAL
HANDLING**

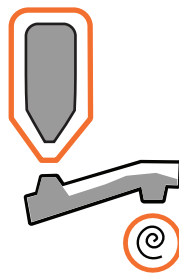

**CONVEYING,
SKIRTING &
TRACKING**

**VIBRATION &
FLUIDISATION**

**ENGINEERED
SOLUTIONS**

Bulk Material Handling

We supply an extensive range of bulk handling products from market-leading suppliers including WAM, Kinder, Oli, and more. Together with our Engineered Solutions divisions, we can offer our expertise with design, supply and installation of Bulk Material Transfer Systems to convey, transport, load, bag or elevate your bulk materials, as required.

We offer on-site application analysis & design services and stock a full range of bulk handling products ready for delivery, and breakdown situations.

Dust Collectors

- > Dry-Batch Concrete Plant Collectors
- > Flanged Round Dust Collectors
- > Polygonal Dust Collectors
- > Silo Venting Filters
- > ATEX Dust Collectors
- > Venting

Valves

- > Blow-Through Rotary Valve
- > Drop-Through Rotary Valve
- > Pinch Valve
- > Butterfly Valve
- > Actuators
- > Slide / Slide Gate Valve
- > Diverter Valve
- > Double Dump Valve
- > Plug Diverter Valve
- > Lump Breaking Feeder Valve

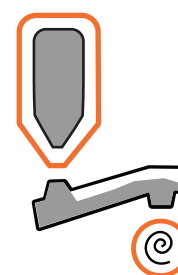

Mixers, Blenders & Agglomerators

- > Batch Type Mixers
- > Dust Conditioner
- > Continuous Mixers
- > Conical Screw Mixer
- > Mortar Mixers
- > Ribbon Blender

Storage Silos

We supply, install and maintain a wide range of silos, monitoring and safety equipment, customised to suit your applications requirements. Providing **Design, Production, Shipping, Installation & Maintenance** of storage silos.

- > Storage Silos
- > Silo Monitoring & Automation System
- > Silo Safety Products
- > Silo Venting Filters
- > Bin Activator
- > Live Bin Bottoms
- > Silo Shut-Off Butterfly Valves
- > Lump Breakers

Bulk Material Handling

Screw Conveyors

- > Shaftless Screw Conveyor
- > Trough Screw Conveyor
- > Twin Shaft Screw Feeders
- > Cement Screw Conveyors & Feeders
- > Filler Dust Screw Conveyors & Feeders
- > Tubular Trough Screw Conveyor
- > Minimum Residue Tubular Screw Feeders
- > Heavy-Duty Tubular Screw Feeders
- > Vertical Screw Conveyor
- > Stainless Steel Tubular Conveyor
- > Tubular/ Flexible/ Custom Screw Conveyor

Solid & Liquid Separation

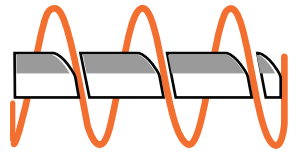

- > Concrete Reclaimers
- > Concrete Separator
- > Grit Classifiers
- > Screw Compactor
- > Screw Press Separators
- > Screw Screens
- > Vertical Screw Conveyor for Sludge
- > Waste Water Mini-Treatment Plant

Loading Bellows

- > Truck Loading Bellows
- > Ship & Stockpile Loading Bellows
- > Tanker Loading Bellows

Weighing, Metering & Feeding Systems

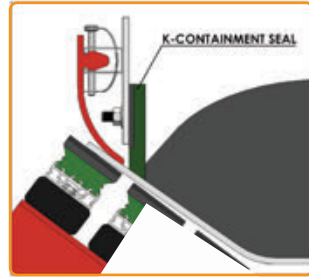

- > Bulk Bag Loading/Unloader
- > Loss-In-Weight (LIW) Feeder
- > Micro-Batch Feeders
- > FIBC Bagging/ Weighing Equipment
- > Filler Dust Screw Feeders & Conveyors
- > Weigh-Belt Feeders
- > Automatic Weighing Systems
- > Belt Weighing Conveyors

Conveying, Skirting & Tracking

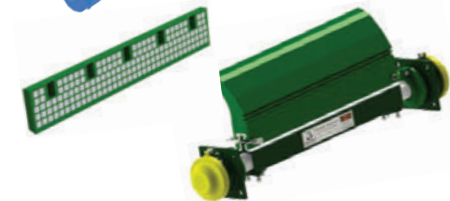

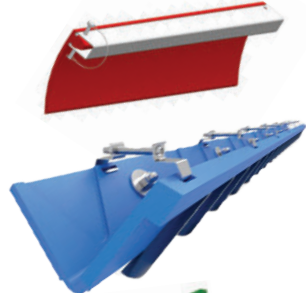

We supply the complete range of Conveying products from market-leading suppliers including Kinder, WAM, Oli, Damon, Modquip and more.

We offer on-site application analysis & design services and stock a full range of Conveying products, including customisation, ready for delivery, and breakdown situations.

Belt Skirting

- > K-Snap-Loc Dust Seal System
- > K-Containment Seal
- > K-Superskirt Engineered Polyurethane
- > K-Ultra Dual Seal
- > K-Fold-N-Seal Skirting System
- > K-Super Block Skirting Seal
- > K-Conlock Clamp System
- > K-Speedskirt Hardskirt Plates
- > K-Quick Clamp Skirting System
- > K-Lock Wedge Skirting Clamp
- > Dust-Free Conveyor Belt Skirting
- > Skirting Rubber
- > Belt Scrapers

Modquip Conveyor System

- > Assembled from locally stocked components
- > Immediate Delivery, Australasia Wide
- > Flat Packed, basic tool assembly
- > Customisation Available

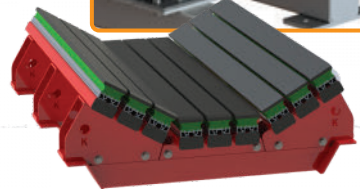

Bucket Elevators & Components

Contact Us for all your Belting & Repair Products

Impact Bed

Anti-Wear Materials

- > Magna-Plug
- > Magna-Seal
- > Magna-Skin
- > Anti-wear Elbows
- > Anti-wear Lining

Conveyor Tracking & Rollers

- > Conveyor Rollers
- > Flexible Conveyor Idler
- > Conveyor Pulleys
- > Belt Conveyor
- > Gravity Roller Conveyor
- > Live Roller Conveyor
- > Auto Conveyor Belt Tracking System

Vibration, Fluidisation & Flow Control

We stock a range of vibrators and flow aids by Oli Vibrators, that are used in numerous sectors of application including construction, mining industry, food industry and recycling.

We offer on-site application analysis & design services and stock a full range of Vibration & Fluidisation products ready for delivery, and breakdown situations.

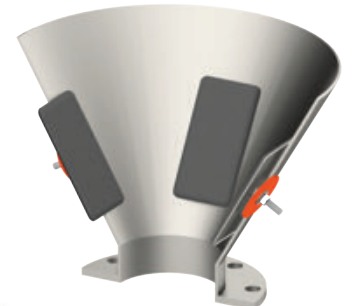

Vibration Motors

- > Electric Vibrators
- > AC & DC Motors
- > Hammer Vibrators
- > Pneumatic Vibrators
- > Single Impact Pneumatic Hammer
- > MVE Extender Vibrator
- > Vibrator Clamps & Cradles

Fluidisation

- > Fluidisation Pads
- > Fluidisation Nozzles

Flow Control

- > Vibro-Aerators
- > Electronic Pressure Meter
- > Vibrating Bin Aerators
- > Rotary Level Indicators
- > Combined Hammer Blasts

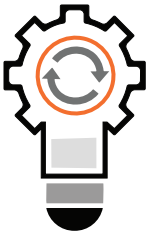

Concrete Consolidation

The quality of concrete can be significantly improved by vibration by reducing the volume of voids, air pockets & entrapped air in a fresh cementitious mixture.

- > High Frequency Vibration
- > Electric Concrete Pokers
- > External Electric Motovibrators
- > Electric High Frequency Internal Vibrators
- > Frequency & Voltage Converters
- > Rotary Ball Vibrators
- > Continuous Impact Vibrators, and more.

Engineered Solutions

Design, Specialised Projects & Custom Builds

Together with our Design/ Project Management/ Automotive Divisions - **Techquip** and **Automation & Control**, we offer the complete package.

Our team are trained in all aspects of bulk materials handling and power transmission products & services and can assist with project management including Design, Supply, Installation & Maintenance.

- > Bulk Bagging Systems
- > Screw Packages
- > Factory Automation
- > Batching Plants
- > Food Grade Equipment
- > Pneumatic Transfer
- > Pivoted Weigh Screws
- > Batching Plants
- > Dosing Systems
- > Loss in Weight Systems
- > Weighing Conveyors, and more.

Installation, Maintenance & Servicing

Our servicing and repairs are carried out by our service & maintenance division, Techquip, where we offer on-site quotations & assessments.

- > Genuine Parts
- > Locally Manufactured Parts for breakdown situations
- > Rebuild service for all head drum and idler assemblies.
- > Full strip and inspection reports, including all analysis, hardness testing, and no load run testing.
- > Tailored reports providing preventative maintenance & drive installation advice.
- > Reliable Mobile Service Team
- > On-site Servicing & Repairs for a Range of Equipment, General Fabrication & Maintenance.
