EX-STOCK DELIVERY 

2 YEAR WARRANTY 

5 YEAR WARRANTY 

5 YEAR WARRANTY 

MOTOVIBRATORS

MVE Standard

Efficient solution, in stock

Conveying, screening, feeding, emptying.
Sectors: food, construction, mining, foundry.
From 0.04 to 13.9 kW (2-4-6-8 poles).

MVE-Exe Increased Safety

For hazardous environments

Screening, feeding, hopper emptying.
Sectors: food, mining, chemical.
From 0.16 to 7.6 kW (2-4-6-8 poles).

MVE-Exd Explosion Proof

For extremely hazardous environments

Screening, conveying, feeding.
Sectors: oil and gas, mining.
From 0.35 to 3.6 kW (2-4-6-8 poles).

MVE-Micro

Seal-proof monolithic body frame

Hopper emptying, compaction.
Sectors: food, plastic, chemical.
From 0.03 to 0.07 kW (2 poles), 1Ph, 3Ph.

OWC Oscillating Mounts

Elastic suspensions for vibrating devices

Applications: vibrating screens, feeders, dryers,
compaction tables and vibrating machines.
Sectors: quarry, mining, plastic, chemical,
recycling, food processing.
From 5 kg to 1,600 kg load capacity.

MVE-SS Stainless Steel

Specific for food processing applications

Feeding, conveying,
screening, sorting.
Sector: food processing.
From 0.12 to 0.77 kW (4-6-8 poles).

MVE-FD Flanged Drive

Designed for horizontal and inclined vibrating screens

Vibrating machines and equipments for
aggregates, soil and minerals processing.
Sectors: quarry, mining.
From 2.5 to 8 kW (6-8 poles).

MVE-F Flanged

For circular vibrating machines

Deburring, polishing, brightening,
drying.
Sectors: ceramics and all the other
industrial sectors.
From 0.3 to 2.5 kW (2-4-6 poles).

MVE-DC Direct Current

IP 66 protection, resistant to accidental shocks

Ideal for concrete pumps.
From 0.08 to 0.16 kW,
12 V and 24 V.

MVE-SV Screen Vibrator

Designed to be installed without any support crossbeam

Screening applications.
Sectors: quarry, mining, oil.
From 2.2 to 3.8 kW (4 poles).

5 YEAR WARRANTY

10 YEAR WARRANTY

FLOW AIDS

AERATORS

Vibro-Aerators: VB

Dry powders.
Food and chemicals compatibility.
The fastest loadout speed.

Aeration Pads: I100

Cement, lime.
Low air consumption, create fluid bed, suitable for retrofitting.
External mounting kit.

Aeration Nozzles: U

Cement, lime.
Low air consumption, create fluid bed, suitable for retrofitting.

AIR JET

Air Cannons: GUNJET PG

Irregular shapes and fibrous light materials.
Compact design.
The fastest loadout speed.

ROTARY PNEUMATIC VIBRATORS

Maintenance-free;
Anodized aluminium body;
High performance;
Low air consumption.

Turbine: OT

Food environment.
Oil-free.
High performance.

Roller: OR

Hygroscopic powders.
High temp.

Ball: S

Dry powders and granular materials.
Generic use.

LINEAR PNEUMATIC VIBRATORS

Single Impact: PS

Dry and wet powders.
Integrated solenoid valve.

Continuous Impact: P

Hygroscopic, sticky and humid powders.
High temperature.

Cushioned: K

Hygroscopic, dusty powders and granular materials.
Clean, silent.

Adjustable Cushioned: F

Hygroscopic, dusty powders and granular materials.
Adjustable force and vibration frequencies.

HYDRAULIC VIBRATORS

Hydraulic: MVO

Hygroscopic, wet, sticky powders and granular materials.
High force and performance, continuous duty, robust and safe.
Easy to install, compact design.
